Connected Cardiac
Monitoring

Biotres can be worn in the shower 

3-LEAD ECG: UNPRECEDENTED ACCURACY

3-DAY TURNAROUND: RESULTS IN DAYS, NOT WEEKS

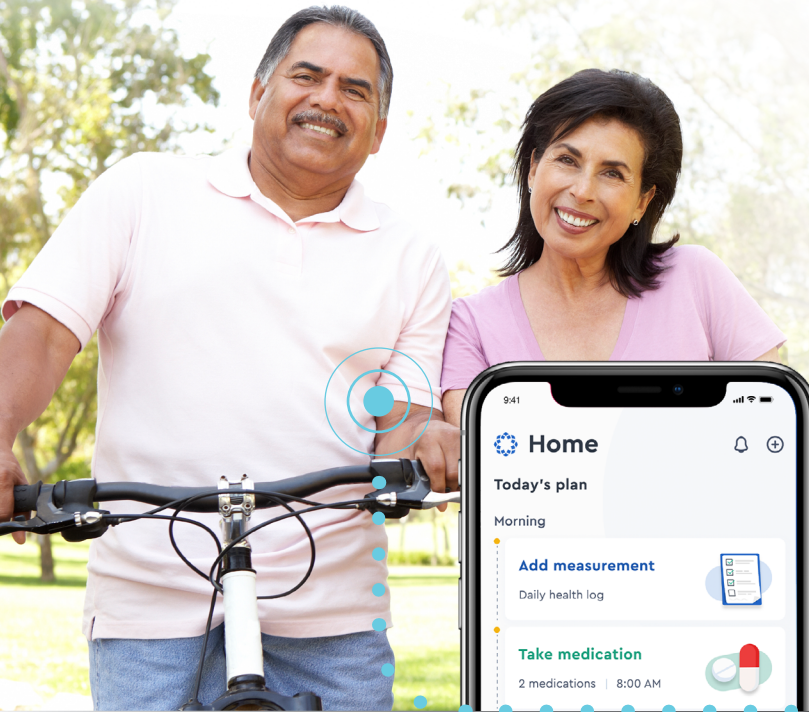

REVENUE GENERATION: CLINIC REIMBURSEMENT

PORTAL/APP: ONLINE MONITORING

record ▶ upload ▶ review ▶ diagnose

PATIENTS UPDATE AND VISUALIZE THEIR DATA IN THE **BIOCARE APP**

Our cardiac disease management solution puts actionable data at your fingertips and links you directly to your patients through the **BIOCARE** app, resulting in:

- Increased practice efficiency
- Reduced calls and troubleshooting
- Improved patient compliance, resulting in less repeated studies
- Increased patient engagement
- Patient-logged events for faster, more accurate results

NO MORE...

- ⊘ Lost patches and reports that take weeks to get back
- ⊘ Patients calling about co-insurance or other patient charges
- ⊘ Waiting for device shipments to get your reports
- ⊘ Data loss or empty reports due to channel limitations
- ⊘ Giving your technical fees away to vendors
- ⊘ Calling patients back to the clinic to make changes to their studies
- ⊘ Premature patch failure due to patients showering (*Biotres is rated **IP66** and is water-resistant*)

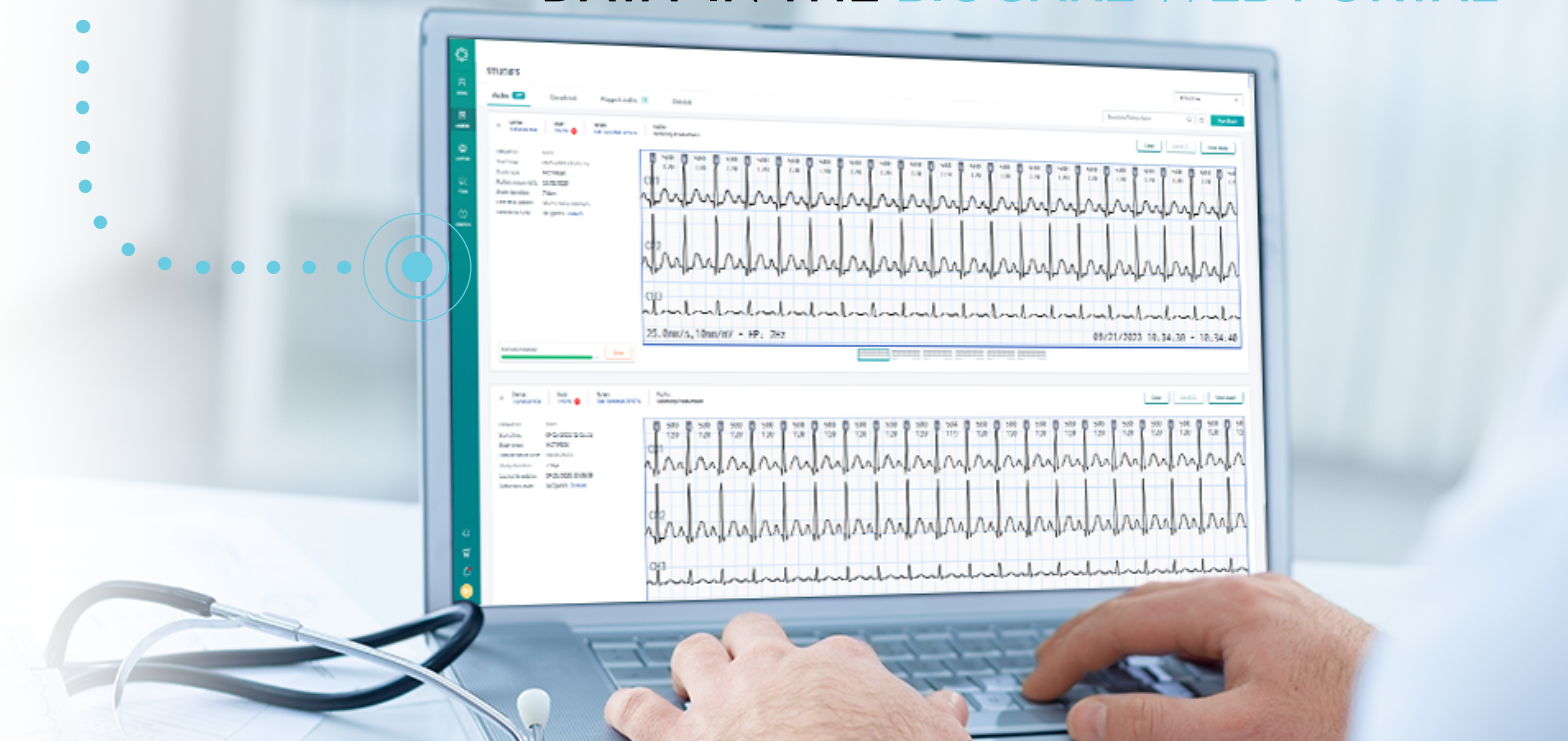

...SO YOU CAN **KNOW** MORE ABOUT YOUR PATIENTS

WHAT DOES IT MEAN?

- **3-LEAD ECG: UNPRECEDENTED ACCURACY**
Unprecedented accuracy, thanks to three clinical grade ECG leads providing excellent P-wave, QRS beat morphology and ultra-low noise ECG.
- **3-DAY TURNAROUND: RESULTS IN DAYS, NOT WEEKS**
Unlike patches that often take up to 21 days for turnaround, clinics using Biotricity devices have access to study data within 3 days of patient finishing their study.
- **REVENUE GENERATION: CLINIC REIMBURSEMENT FROM CMS & PRIVATE PAYERS**
Because Biotricity is not an Independent Diagnostic Testing Facility (IDTF), revenue from claims are paid to the clinic, not the device vendor, significantly growing clinic revenue even after Biotricity program fees.
- **PORTAL/APP: ECG DASHBOARD**
On-demand, full-disclosure data is available 24/7 on a secure world-class patient portal for review by trained healthcare professionals.

CLINICS INSTANTLY ACCESS PATIENT DATA IN THE **BIOCARE WEB PORTAL**

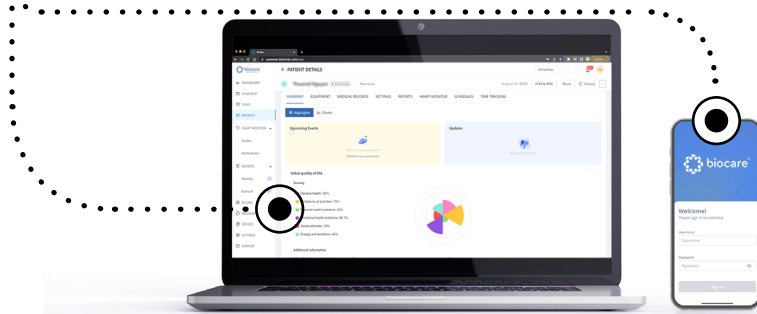

BIOCARE Diagnostics is integrated with our **BIOCARE** Disease Management platform to deliver a holistic solution with the following features:

- Care plans for individual patients
- Remote patient monitoring devices
- Virtual clinic platform and bi-directional communication
- Automated reporting and notifications

● **RPM + CCM = REVENUE GENERATION**

THE FIRST OF ITS KIND, STATE OF THE ART, ADVANCED DIAGNOSTICS AND DISEASE MANAGEMENT PLATFORM IS A COMPLETE SOLUTION FOR ANY CLINIC.

Our platform enables clinicians to provide outstanding patient care, ensuring patients with risk factors can receive remote care and support quickly. **BIOCARE** provides seamless integration with your clinic workflow, saving valuable time, reducing costs, and supporting revenue generation.
