

# simpiller

WHERE MEDICATION  
MANAGEMENT MEETS  
INNOVATION.

## What is Simpiller?

The ultimate medication management system, linking patients directly with their healthcare teams for seamless care.

**Our mission** is to simplify and enhance the medication-taking process, ensuring that patients adhere to their prescribed regimens, thus fostering better health outcomes and reducing systemic healthcare costs.

### HOW SIMPILLER WORKS

#### For Patients

Effortless medication tracking with at-home and mobile support, catering to users of all ages and skills.

#### For Caregivers and Physicians

Real-time alerts empower care teams for faster interventions, informed decisions, and deeper patient health insights.

#### For Healthcare Systems and Pharmacies

Simpiller integrates with healthcare infrastructure, connecting pharmacies, providers, and patients, streamlining operations and reducing costs.

#### The Result

With Simpiller, medication adherence is significantly improved, the burden on healthcare systems is lessened, and the overall quality of care is elevated. We're not just a platform; we're a partner in health, dedicated to bringing about a transformative shift in medication management.

# How Simpiller works?

## Notify

Alerts you with timely reminders to take your medication.

## Scan

Easily scan your medications to ensure they match your prescription.

## Confirm

Confirms correct medications with green signals before you dose.

## Alert

Notifies you with distinct signals if an incorrect medication is scanned.

# Simpiller's Integration Ecosystem

## Provider & Healthcare Systems

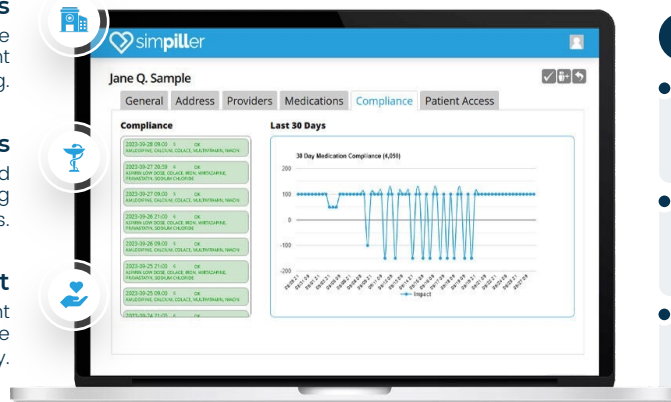

Syncs with EMR to allow real-time prescription management and patient monitoring.

## Pharmacy Software Systems

Streamlines medication orders and inventory management, connecting pharmacies with providers.

## Caregiver Facility Management

Integrates with management systems to ensure accurate medication delivery.

## PATIENT BENEFITS

### Ease of Use

Simple at-home device setup with mobile app for medication management.

### Real-Time Alerts

Instant notifications for missed doses prompt immediate caregiver action..

### Compliance Packaging

Pre-organized medication packs for simplified daily intake.

Integrate. Manage. Adhere. It's that simple.

# Quick & Efficient Implementation

## TIMELINE

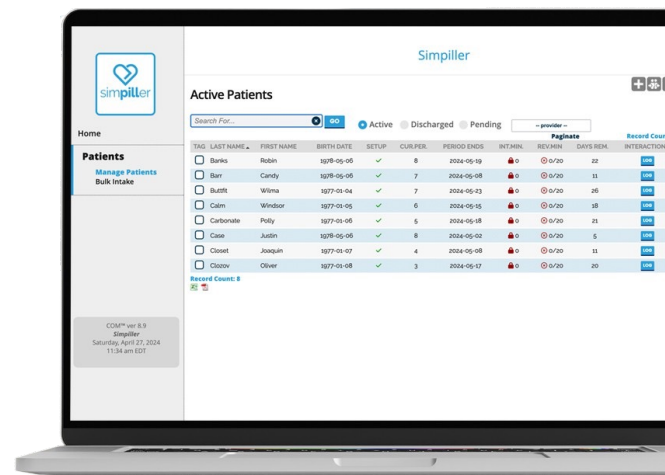

Simpiller's system can be fully integrated into a new organization in less than one week.

## PROCESS

The rapid deployment includes setting up and testing all integrations with the organization's existing systems, ensuring a seamless transition and immediate start.

## SUPPORT

Simpiller provides initial training and ongoing support to ensure both staff and patients are comfortable and confident in using the system.
